

A CONCORDANCE TO *HESPERIA* VOLS. I-XXX WITH SUPPLEMENTS I-X AND *SUPPLEMENTUM EPIGRAPHICUM GRAECUM* VOLS. I-XX

THE following concordance contains a complete *comparatio numerorum* between *Hesperia*, Vols. I-XXX (including Supplements I-X) and *S.E.G.*, Vols. I-XX. The system employed should be mainly self-explanatory, but for the sake of lucidity I append a few notes for the reader's convenience.

1. Abbreviations: *H.* = *Hesperia*. In quoting an *Hesperia* reference the sequence of items is: vol. number, page number, inscription number. If no third item appears, this means that a page reference only is involved.

S. = *S.E.G.*. In quoting a *S.E.G.* reference the sequence is: vol. number, inscription number (no page reference being required).

Volume numbers for both journals are given in Roman numerals.

2. The latest volumes of *Hesperia* are dealt with first, thus enabling the reader to see at a glance where the latest publication of a document is and also where it, or part of it, has been previously published (in Column 4) and where reference to it or discussion of it has been made (preceded by cf. in Column 4).

3. In any given volume where I am dealing with an inscription which has also been referred to more fully elsewhere, my procedure is to quote only the *S.E.G.* reference and to refer the reader (in Column 4) to the main publication, usually the most recent, with the formula "see *H.*," where all the relevant information will be found.

4. I have thought fit to complete the picture by including, where applicable, references to *I.G.* (in Column 3).
